

HELLO KIRSEBERG AND JOHANNESLUST!

# Would you like to participate in research about your dwelling?

My name is Matilda and I am a PhD student at Malmö University. In my research project, "Caring for housing quality? A study of the Swedish housing system", I study housing quality in Sweden with a starting point in peoples' experiences.

**I am now looking for adults (18 years or older) in Kirseberg and Johanneslust who want to contribute to the research by being interviewed.**

Through the interview, I wish to learn about your views on and experiences of your dwelling. In the interview, I will, for example, ask questions about your previous dwellings, what you think of your current, and how it works in your daily life. I am interested in knowing and understanding your thoughts and experiences and not in examining specific things in your home.

I can do interviews in Swedish or English, but an interpreter can be arranged if you prefer another language. We can meet either at your home or at another place. Your name will not be mentioned in what I write based on the research.

Welcome to contact me if you want to participate or would like to know more about the project!

Kind regards,  
Matilda Annemark Sandberg
